

The power of precision

SCIEX 7500+ system

Setting a new standard for instrument resilience

The SCIEX 7500+ system is a triple quadrupole engineered to maintain the highest level of sensitivity for up to twice as long, even in complex matrices.

ZenoTOF 8600 system

Extraordinary discoveries demand extraordinary proof

The ZenoTOF 8600 system delivers new levels of sensitivity, combined with the versatility of EAD and Zeno-trap enabled workflows.

SCIEX OS software

Software to power your SCIEX ecosystem

SCIEX OS software delivers data integrity, seamless usability and efficiency gains for your mass spectrometry workflows throughout your laboratory.

Accurate mass extractables & leachables open access high-resolution MS/MS spectral library

Keeping up with the evolving world of Extractables & Leachables (E&L) has never been easier. SCIEX, in collaboration with the scientific community, offers an open-access, high-resolution MS/MS spectral library with 724 compounds and 1,200+ spectra—covering polymer degradants, antioxidants, UV stabilizers, and more.

The SCIEX clinical diagnostic portfolio is For In Vitro Diagnostic Use. Rx Only. Product(s) not available in all countries. For information on availability, please contact your local sales representative or refer to www.sciex.com/diagnostics. All other products are For Research Use Only. Not for use in Diagnostic Procedures. Trademarks and/or registered trademarks mentioned herein, including associated logos, are the property of AB Sciex Pte.
